

citizenM 'proof of vaccination' policy

What you need to know:

From **13 September**, anyone entering or staying at our New York hotels who is over 12 years old must show proof of at least one dose of the COVID-19 vaccine authorised by the FDA or WHO. This is consistent with the legal order outlined in the **NYC Executive Order 225**.

On entering our New York hotels, everyone must show their **proof of vaccination** and a **government-issued photo ID card** (with the same verification information on it) at the kiosks. We accept following vaccination passes:

- NYC COVID SAFE app
- Excelsior Pass
- CDC vaccination card (or photo)
- NYC vaccination record
- an official immunisation record of a COVID-19 vaccine administered outside the USA
- all international travellers must show a vaccination card, photo or EU app with QR code.

Which vaccines do the FDA and WHO authorise?

FDA authorises:

Pfizer-BioNTech
Janssen (single-shot vaccine by Johnson & Johnson)
Moderna, NIAID

WHO authorises:

Sinovac
Pfizer-BioNTech
Sinopharm-BBIBP
Astrazeneca-SK Bio
Serum Institute of India
Janssen (for emergency use)
Moderna, NIAID (for emergency use)
